EXPERIMENT 5

ROLL NO: 240701623 NAME: Adavan R

Create a prototype with familiar and unfamiliar navigation elements. Evaluate ease of use with different user groups using proto.io

This prototype represents a **Ferrari car booking application** where users browse cars, view specifications and complete booking. Each screen contains recognizable navigation patterns and some interpretative elements to test usability.

Screen 1 — Landing Page

Purpose: Entry screen of the application

- **Brand Logo (Ferrari Emblem) – Top Area**
  - Clearly indicates brand identity
  - Users instantly recognize the application purpose
- **"SIGN IN" Button – Bottom Center**
  - Standard call-to-action button
  - Guides users to authentication process

Screen 2 — Login Page

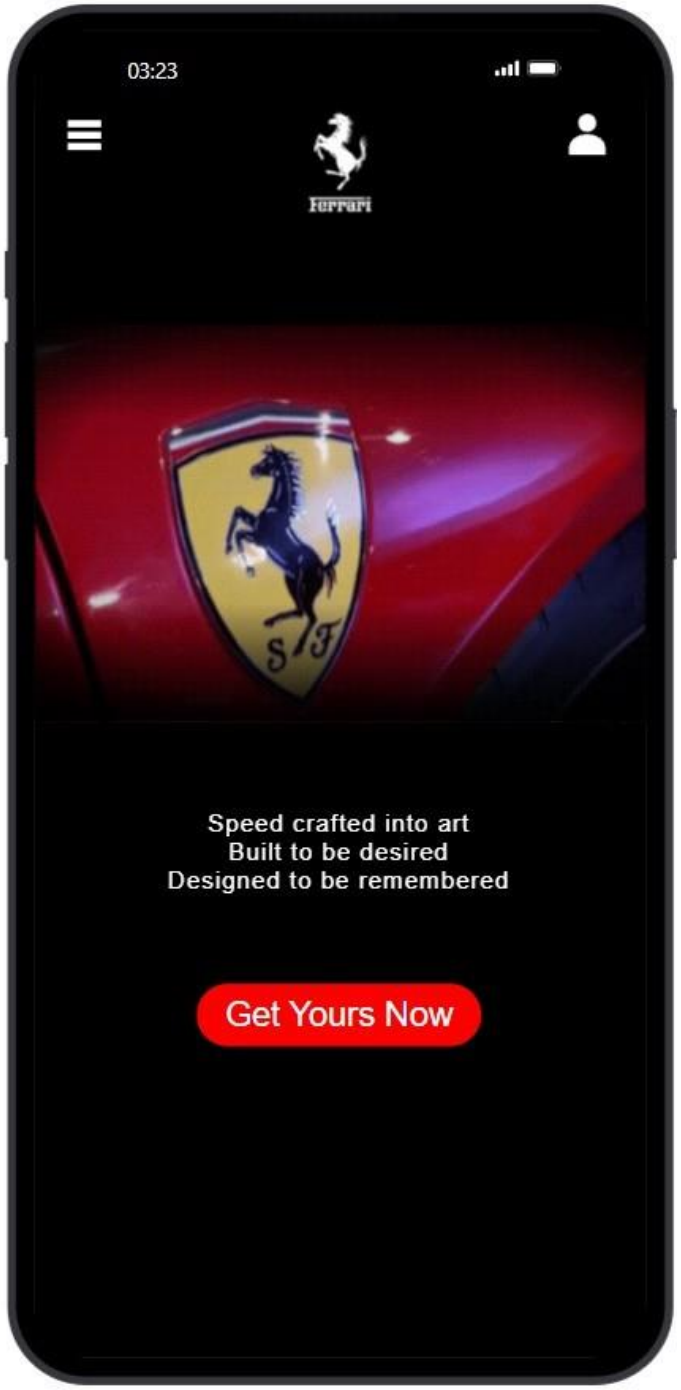
Purpose: User authentication

- **Email ID Field**
  - Standard text input for login credential
- **Password Field**
  - Secure authentication pattern
- **Forgot Password Option**
  - Expected recovery feature
- **Terms & Conditions Checkbox**
  - Common agreement confirmation
- **Arrow Button (→)**
  - Represents proceeding to next screen

Screen 3 — Home Page

Purpose: Main promotional screen

- **Hamburger Menu (☰) – Top Left**
  - Indicates navigation drawer
- **Profile Icon – Top Right**
  - Represents user account access
- **Primary CTA: "Get Yours Now"**
  - Directs user to explore cars



Screen 4 — Car Listing Page

Purpose: Display available cars

- **Scrollable Car Cards**

    - Common e-commerce browsing pattern
- **Back Arrow (←)**
    - Returns to previous page
- **Profile Icon**
    - Consistent navigation element
    -

Screen 5 — Car Details (Ferrari F80)

Purpose: Show specifications

- **Back Arrow**
  - Return navigation
- **Specification Text Section**
  - Informational layout
- **“BOOK NOW” Button**
  - Primary action button

Screen 6 — Car Details (Ferrari SF90)

Purpose: Compare another model

- **Car Image + Specs Layout**
    - Same pattern as previous screen
- **Book Now CTA**
    - Consistent action placement

Screen 7 — Car Details (Ferrari SP3)

Purpose: Final selection before purchase

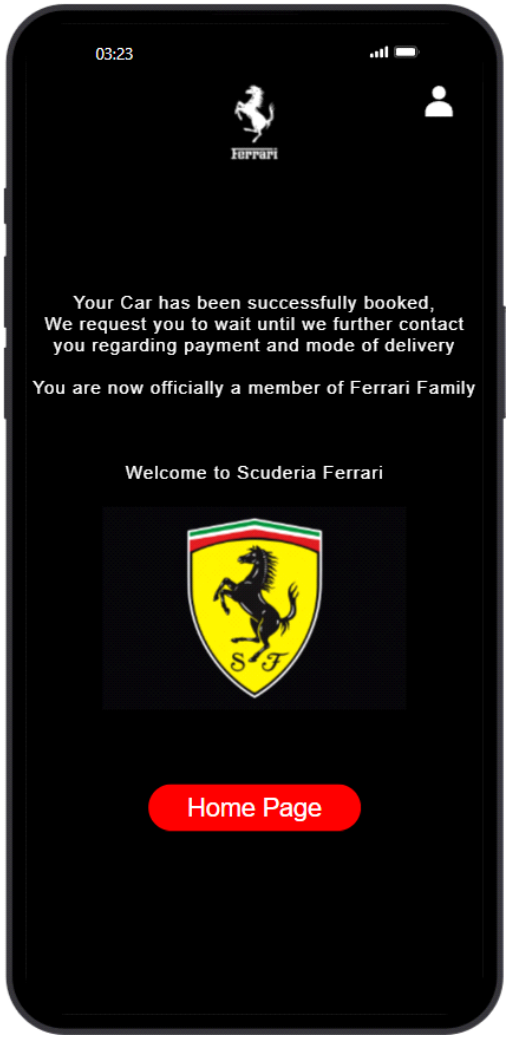
- **Back Arrow Navigation**
- **Performance Specifications**
- **Book Now Button**

Screen 8 — Booking Confirmation Page

Purpose: Final confirmation after booking

- **Confirmation Message**
  - Provides feedback of successful action
- **Brand Logo**
  - Reinforces trust

- **Home Page Button**
    - Allows navigation back to start



Overall Usability Result

The prototype demonstrates:

- Familiar navigation (buttons, back arrow, login fields) → quick understanding
- Repeated layout → improved learnability
- CTA-based navigation → minimal confusion

- Branding elements → trust and clarity

Conclusion:
Users complete tasks efficiently because recognition-based UI reduces cognitive load compared to unfamiliar navigation patterns.
